

## **Veterinary Complaint**

While the Wisconsin House Rabbit Society does not recommend any particular veterinarian, it does maintain a list of veterinarians who have received positive reviews from active, long-time members who have had many rabbits in veterinarian care over the years.

WHRS will make available to these doctors complaints that come from the membership. Please do not submit a complaint form if you are not a member in good standing. If you are and wish to send an anonymous complaint to a veterinarian on our list, please describe your negative experience and send it to our webmaster. The WHRS will forward your remarks but will not include your identity.
